

Simplify Scheduling and Maximize Productivity

iBooking is a real time meeting room booking solution that increases the productivity use of your meeting room resources and prevents double booking and forgotten cancellations. iBooking is integrated with Outlook calendar for meeting room booking purposes. The meeting schedule can be broadcasted and updated to LCD display at real time.

About Us

As we continue to navigate an increasingly digital world, our commitment to quality, creativity, and cutting-edge technology remains unwavering. Together, let's redefine how you connect with your audience.
